Authorization for this examiner's amendment was given in a telephone interview with Thomas E. Donohue on 14 March 2006.

The application has been amended as follows:

- ii) Delete [.] at the end of claim 1 and insert --;--.
- iii) Insert following the last “;” of claim 1 the following

- vii) Delete claim 10 in its entirety.

The following is an examiner's statement of reasons for allowance: The claims are novel and nonobvious over the prior art of record for the following reasons. The prior art of record does not disclose or suggest the following features in combination as arranged in the claims: utilizing a flexible steering column shaft having a *fixed end* and a free rotational end that is *axially elastically twisted* in conjunction with a *steer-by-wire* control module in communication with said shaft.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
